SHIELD '65

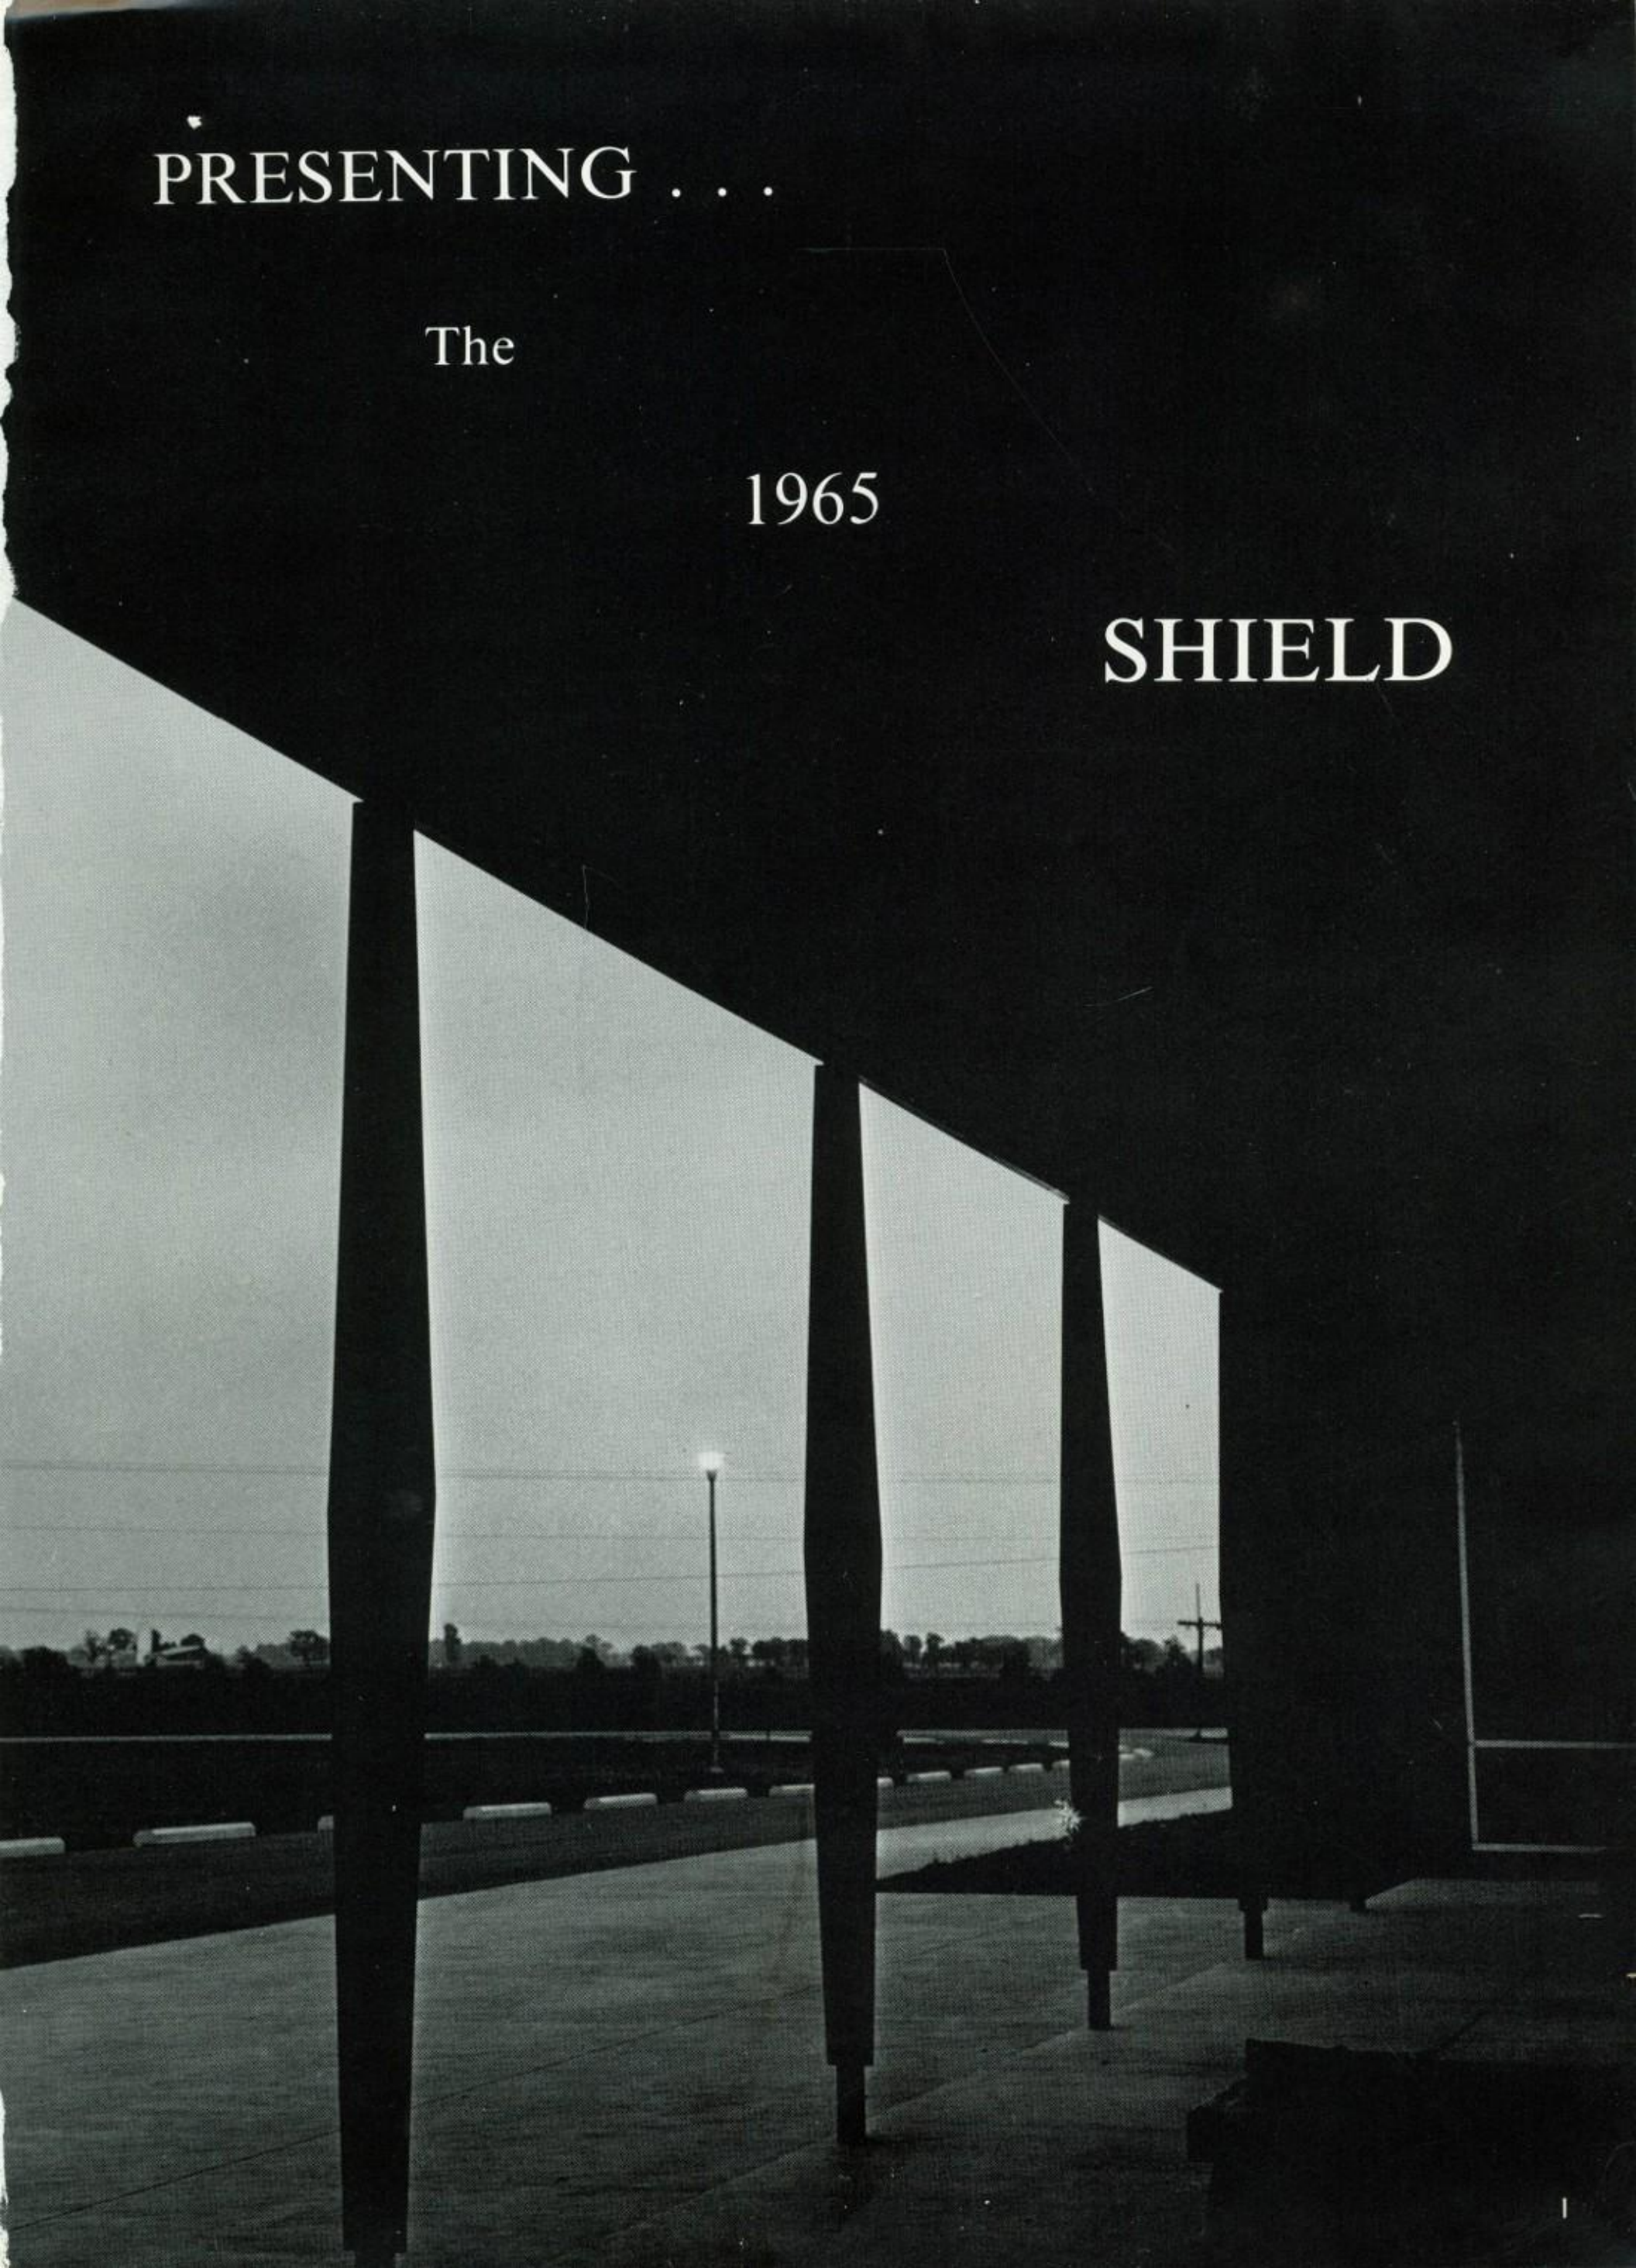
Coach Hawkins

PRESENTING . . .

The

1965

SHIELD



The torch, which is a symbol of light, guides us when we find ourselves in darkness and need to look ahead. This building, with all its lighted windows, is also a symbol of light to all who have studied within its walls.

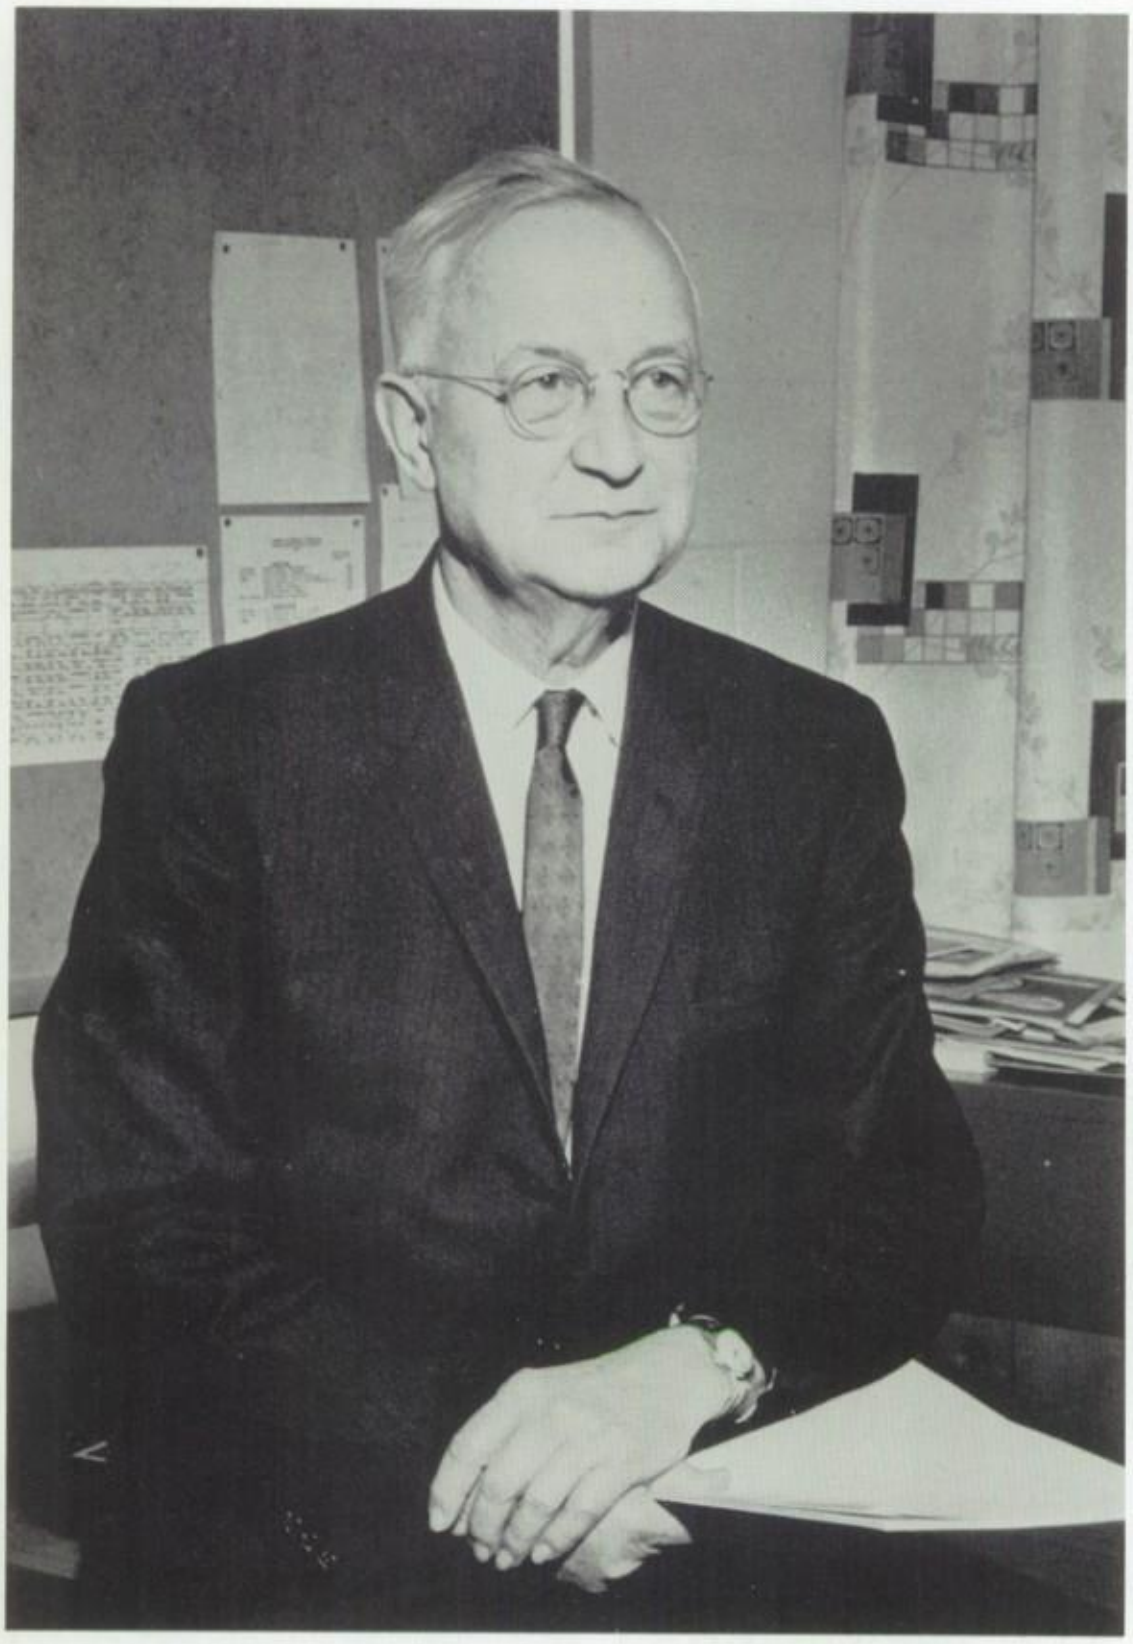
It Is With Great Honor That We Dedicate the 1965 Shield to . . .

Mr. Carl Cover

It is an honor to pay tribute to one who has become such a genuine part of River Valley High School. His interest in the students and his eagerness to help them have endeared him to all who have come under his influence. Because he means so much to so many, we the senior class of River Valley High School dedicate the 1965 Shield to Mr. Carl Cover.

Administration



Superintendent

A. B. AUGENSTEIN

Superintendent's Message

I consider it a great privilege to have served as head of the schools of a community for the many years that I have. I know that in retirement I am going to miss many of the associations I have enjoyed.

The satisfactions and rewards have far outnumbered the trials and disappointments.

I wish nothing but the best for the future of the River Valley Schools.

A. B. Augenstein

Principal's Message

There are many aspects of living in our present complex society that must be learned and experienced in our school life.

It is quite apparent that we are involved in these various aspects and it is very gratifying to see students complete their high school life as well adjusted as they appear.

With the ability that this group of graduating seniors have and with the drive and desire they have demonstrated, I am sure that they will succeed in becoming good citizens in our democracy.

Congratulations and the best of luck.

We have just concluded another phase of our lives--a very important phase--one which has prepared us for the challenge we shall encounter in the future.

Throughout our days at River Valley, the torch of learning has been lighting our way as we have gained the knowledge that will lead us into the next phase of our lives.

As we go forth into the world, we will always remember our motto, "From every ending, there comes a beginning."

As we approach our final year of high school, we recall the many activities in which we have participated, the knowledge we have achieved, and the good times we have had together.

The torch of learning has become brighter day by day and will continue to light the way as we approach our senior year.

As we complete our second year of high school, we look back to the many events and activities in which we have participated. During the past year we have come to realize more fully our responsibilities to our fellow students, our teachers, and our school.

With great expectations, we look forward to our junior year, and, with the torch of learning blazing our way, we shall continue to acquire knowledge and skills which will prepare us for the future.

Having adjusted ourselves to high school life, we will start our sophomore year enriched with the knowledge we have gained as freshmen. Upon completing our first year of high school, we have learned to accept many new and enlightening responsibilities which will help us in the years to come.

Although our torch of learning flickers unsteadily now, it will increase its glow as we increase our knowledge in the future years.

STUDENT PRESIDENT

Gary Lovell

As each year goes by, some of us must leave the familiar surroundings of our valley and venture out into the hills of life. Some are eager to test the talents they have toiled so hard to learn here, others are reluctant to leave the security and guidance they have relied upon for so long. But as each goes his own way, he will long remember the joys and sorrows shared by friends, and be forever grateful for the remarkable patience of the teachers who have tried so hard to prepare him for the hard road ahead. Though life will be different and we will travel far, I know each will never forget and will be forever thankful for his own brief sojourn in the valley.

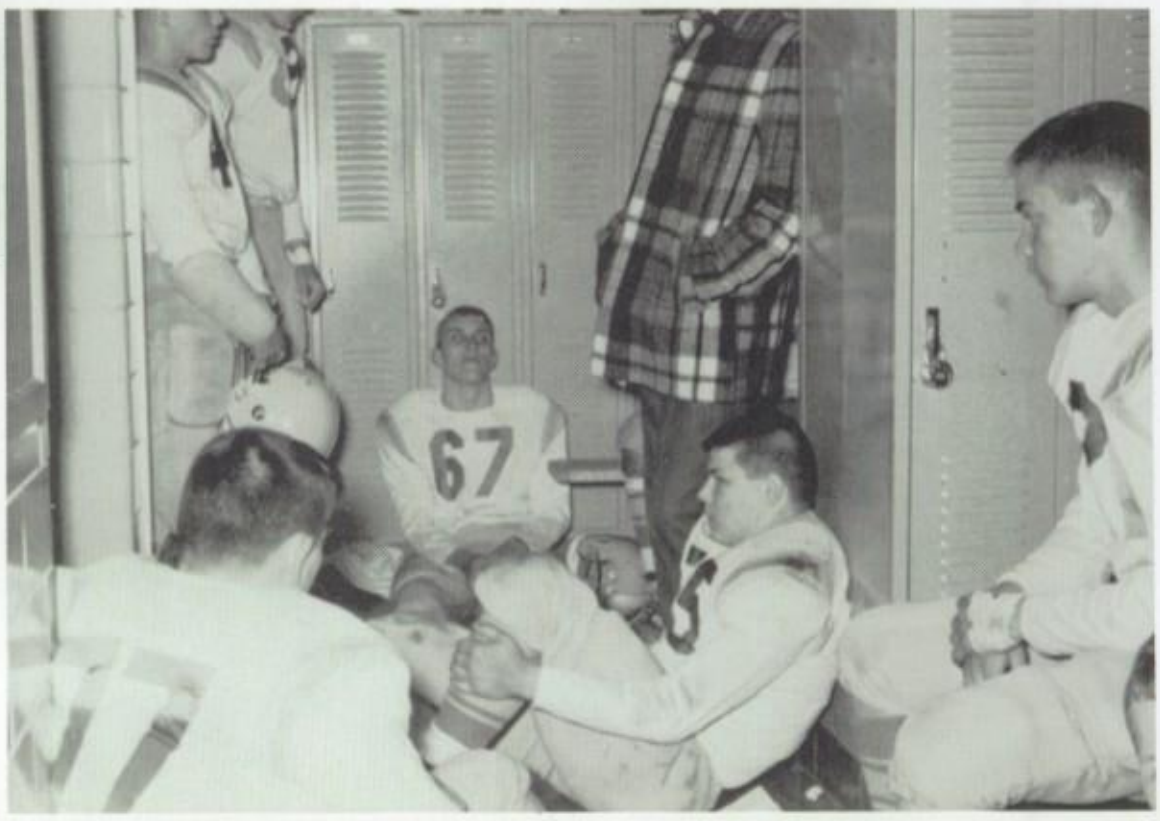
Sic him, fellas!

Casualties spoil the fun.

It's been a hard day's night.



And this guizmus here . . .

Time out for a strategy conference.

Out of my way!

Queen Carol

Last to enter the field but first in our hearts.

Jo Ella begins a perfect evening with a friendly smile.

A Typical Day at River Valley

Ohhhh, Monday!

Someone took my penny.

Well, it was like this . . .

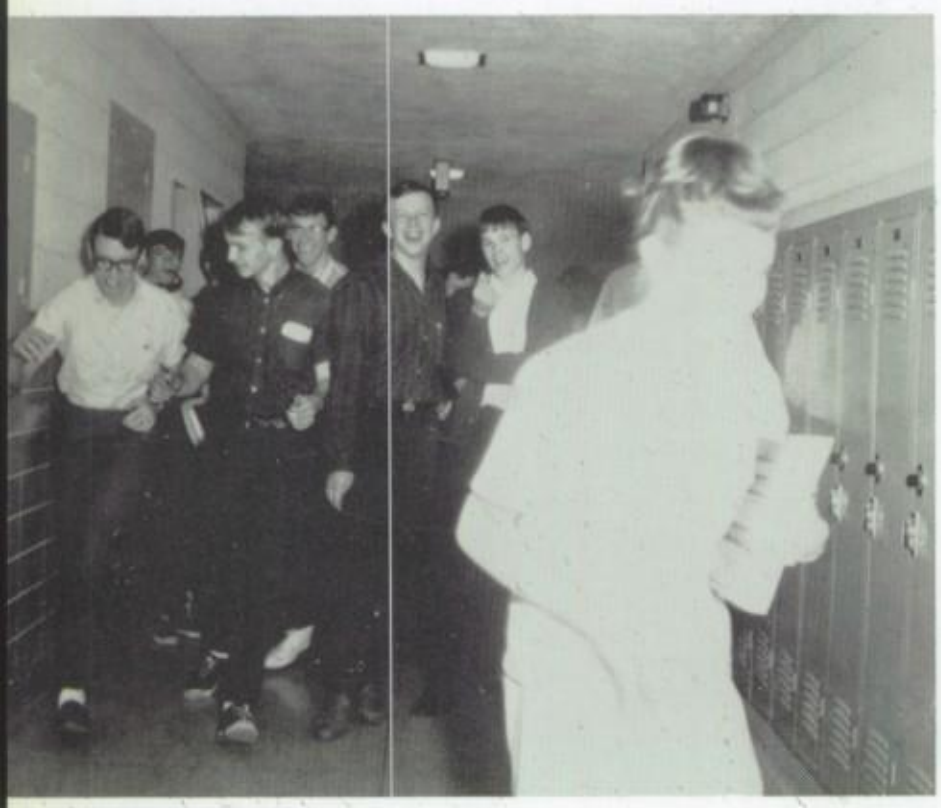
I'll take a guess.

Go to the office!

Back to study.

We Went to State???

That's More Like It!



Starving Seniors

River Valley's Biggest Eater.

Just Five More Minutes . . .

At Last . . .

The End of a Typical Day - - -

To the People Who Bought Advertisements We Say –

Thanks

ROW 1: John McMahan, John Snyder, Jackie Woodrum, Joyce Anderson, Penny Russell. ROW 2: Janice Kinsler, Candy Miley, Sandy Grappy, Kathy Neff, Bruce Rush, Rena Baker, Brenda Porterfield, Kathy Binns, and Pam Groll.

Without advertising there could be no annual. This basic and important fact was impressed on the annual staff in early September and stressed again and again as the year progressed. Most businesses were friendly and receptive to members of the annual staff who approached them. Because of this co-operation, the 1965 Shield is in your hands now.

We sincerely hope and urge the patrons in our school district to support the businesses represented in the advertising section of our yearbook.

YOUR SOHIO DISTRIBUTORS

JOHN E. FELLMETH

BUD MESSENGER

WHAT IS YOUR EDUCATION WORTH?

Your newly acquired education is worth a fortune or nothing - depending on how you use it. If you use it well, by adding to it, through further academic study or practical experience, it will be your springboard to an exciting and rewarding role in the fantastic progress of the next few years.

We at Marion Power Shovel Co. are proud of our use of education. It has helped our employees develop the world's largest and most efficient excavators . . . in developing machines that will help to place men on the moon . . . in building machines that make our country stronger.

Your education will help you build a rewarding life, too. Just use it - use it hard. It will never wear out.

Good use of education and experience made possible that development of this newest Marion machine - a 200 cubic yard shovel that makes it possible to economically mine coal.

Progress begins with digging MARION
